

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 1

Clause 1.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 2

Clause 2.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 3

Clause 3.1: The submersible pumping unit shall operate with 415V supply.
Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 4

Clause 4.1: The submersible pumping unit shall operate with 415V supply.
Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 5

Clause 5.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 6

Clause 6.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 7

Clause 7.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 8

Clause 8.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 9

Clause 9.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 10

Clause 10.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 11

Clause 11.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 12

Clause 12.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 13

Clause 13.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 14

Clause 14.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 15

Clause 15.1: The submersible pumping unit shall operate with 415V supply.
Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 16

Clause 16.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 17

Clause 17.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 18

Clause 18.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 19

Clause 19.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 20

Clause 20.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 21

Clause 21.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 22

Clause 22.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 23

Clause 23.1: The submersible pumping unit shall operate with 415V supply.
Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 24

Clause 24.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 25

Clause 25.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 26

Clause 26.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 27

Clause 27.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 28

Clause 28.1: The submersible pumping unit shall operate with 415V supply.
Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 29

Clause 29.1: The submersible pumping unit shall operate with 415V supply.
Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 30

Clause 30.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 31

Clause 31.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 32

Clause 32.1: The submersible pumping unit shall operate with 415V supply.
Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 33

Clause 33.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 34

Clause 34.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 35

Clause 35.1: The submersible pumping unit shall operate with 415V supply.
Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 36

Clause 36.1: The submersible pumping unit shall operate with 415V supply.
Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 37

Clause 37.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 38

Clause 38.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 39

Clause 39.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 40

Clause 40.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 41

Clause 41.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 42

Clause 42.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 43

Clause 43.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 44

Clause 44.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 45

Clause 45.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 46

Clause 46.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 47

Clause 47.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 48

Clause 48.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 49

Clause 49.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 50

Clause 50.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 51

Clause 51.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 52

Clause 52.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 53

Clause 53.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 54

Clause 54.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 55

Clause 55.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 56

Clause 56.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 57

Clause 57.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 58

Clause 58.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 59

Clause 59.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.

GOVERNMENT OF INDIA TENDER NOTICE - PAGE 60

Clause 60.1: The submersible pumping unit shall operate with 415V supply.

Material of construction shall be stainless steel grade 304.
